

# Human Subjects Education

Investigator	Course Completed
Dr. Jason Adams	Biomedical Research – Basic/Refresher
Dr. Nicholas Anderson	Biomedical Research – Basic/Refresher
Dr. Jean-Pierre Delplanque	Biomedical Research – Basic/Refresher
Dr. Brooks Kuhn	Biomedical Research – Basic/Refresher
	Good Clinical Practice Course for Clinical Trials Involving Drugs (ICH focus)
Jimmy Nguyen	Biomedical Research – Basic/Refresher
	Good Clinical Practice Course for Clinical Trials Involving Drugs (ICH focus)
Gregory Rehm	Biomedical Research – Basic/Refresher
	Good Clinical Practice Course for Clinical Trials Involving Drugs (ICH focus)

Course	Description
Biomedical Research – Basic/Refresher	Discusses the primary ethical issues and federal regulations surrounding biomedical research with human subjects. Consists of history, case studies, and examination of current regulations and statutes, including process of informed consent and protection of vulnerable subjects and populations. Evaluative assessments are performed at the end of each module.
Good Clinical Practice Course for Clinical Trials Involving Drugs (ICH focus)	Discusses FDA regulations surrounding drug development, including rules, regulations, informed consent, and reporting. Evaluative assessments are performed at the end of each module.
