

Respective Contributions:

The training plan was initially conceived by the principal investigator (PI, Rehm) and project mentors Dr. Jason Adams and Dr. Nicholas Anderson. Writing of the proposal was accomplished by the PI. Grant analyst Chue Xiong assisted with the completion of the project budget. After completion of multiple drafts, the proposal materials were referred to the PI's project mentors and colleagues for review. Edits were then made by the PI according to suggestions from reviewers. Dr. Jason Adams in particular, contributed large amounts of edits to the Research Strategy section.
